

# **GACLAY ELECTRIC SERVICES**

Powering the future of industrial excellence in the Greater Katanga region  
with specialized electrical engineering solutions

*Industrial Electricity*

ABOUT US

# Leading Electrical Services Provider

GACLAY ELECTRIC SERVICES SARL is a registered Congolese company specializing in electrical engineering solutions for the mining and industrial sectors. Based in Kolwezi, we deliver comprehensive services from design to installation and maintenance.

## Our core expertise:

- Electrical studies, design & consulting
- High and medium voltage installations
- Equipment assembly and maintenance
- Public-private partnership representation

## Company Details

**Headquarters:** No 296, Lubudi Avenue, Q/Mutoshi, C/Manika-Kolwezi, Lualaba Province

**Registration:** RCCM CD/KZI/RCCM/18-B-719

**ID. Nat:** 6-9-N31834A

**Tax Number:** A1809753X

 VISION

# Building the Future of Electrical Excellence

## Our Vision

To become the reference company for electrical works in the Greater Katanga region, starting from Kolwezi/Lualaba, with a commitment to modernity and innovation.

## Our Strategy

Focused on customer service performance within the mining industry, building long-term partnerships through competitive pricing and win-win business relationships.

# Comprehensive Electrical Solutions

We specialize in serving industrial and mining companies throughout the Greater Katanga area, providing expert services for medium and high voltage electrical installations.

1

## Equipment Assembly & Installation

- Level A (45-120kV) & Level B (3.3-45kV) HV switchgear
- Bus bar assembly and integration
- Medium voltage switchboards
- Low voltage switchgear: DBs and MCCs

2

## Cable Works (up to 33kV)

- Professional cable jointing and termination
- Expert cable pulling, laying and removal
- All voltage levels up to 33kV

3

## Transformer Services

- MV/LV and HV/MV transformer installation
- Power and measurement transformer connection
- Control and protection circuit wiring

4

## Maintenance & Reconditioning

- Electrical installation reconditioning
- Comprehensive cabinet maintenance
- Preventive and corrective interventions

# Expert Engineering Office

Our engineering staff brings exceptional expertise to every project, ensuring meticulous planning and flawless execution from concept to completion.

01

---

## Study & Design

Detailed analysis and technical planning

02

---

## Organization

Resource allocation and scheduling

03

---

## Execution

On-site implementation with safety compliance

04

---

## Quality Control

Standards verification and cost optimization

# Experienced Leadership Team

## **Clement MPAMBU**

### **Managing Director**

Electrical Engineering degree from TH Aachen, Germany. Over 35 years of experience including roles as Plant Maintenance Manager at Luilu refinery and KTC Concentrator, and Engineer at KCC's Project & Construction Department.

## **Jean Pierre ILUNGA**

### **Foreman**

Licensed electrician with over 25 years of field experience. Previously held similar position at KCC and worked as subcontractor for GAENG in Kolwezi.

## **Nathan NTADIANGA**

### **Safety Officer**

Engineering degree in Electrical and Electronic Engineering from ISTA Kolwezi. 5 years as Electrical Engineer, plus experience in safety and remedy roles.

# Skilled Technical Professionals

## Rudy MPAMBU

### IT, Planning & Logistics

MBA in Management Information Systems with over 5 years coordinating logistics and IT operations.

## Camille MUKAZ

### Equipment & Installation Leader

Licensed electrician with 20+ years experience. Former HV Electrician Team Supervisor at KCC.

## Tresor SIMBA

### Cable Works Leader

Industrial Electricity graduate with 7+ years as project electrician and maintenance specialist.

## Aimé MATONDO

### Planning & Reporting Engineer

Civil Engineer in Electromechanics with 10+ years in planning and logistics management.

## Yves BOTAY

### Budget & Expense Controller

Electrical Engineer with 5+ years managing site operations and budget monitoring.

## Henri MORDIVA

### Consulting Engineer

Civil Engineer with 15+ years at SNEL and KCC. Former Energy Department Manager at KCC.

# Health, Safety & Environment Policy

At GACLAY, safety is not negotiable. Our comprehensive HSE policy ensures the wellbeing of our team and the integrity of every project we undertake.

## Employee Development

Adequate support and specialized training for all employees in their delivery areas

## Continuous Improvement

Ongoing enhancement of management systems and occupational health & safety performance

## Regulatory Compliance

Full adherence to DRC legal requirements and client HSE specifications

## Safe Work Environment

Established procedures, sufficient resources, and mandatory safety training for all personnel

# Proven Track Record of Excellence

## ABB Switchboard Installations

Successfully installed ABB switchboards ZS1 & ZS2, ABB PFC systems, and ABB/Powertech 30MVA 120/33kV transformers, including removal of obsolete Reyrolles/Delle equipment and installation of accompanying MT cables.

## KCC Maintenance Support

Extensive installation of DBs, MCCs, and comprehensive cable works through our Services Agreement with KCC, providing Maintenance Technical Support for Processing operations at KTC and LUILU facilities.
